Why Prisonarte.com?

The organization's main purpose is to help incarcerated artists throughout the U.S. have a venue to sell artwork. This site was originally created by business owner, co-founder and wife of incarcerated artist "Che Gallegos". Within the first year the site opened their doors to artists in various states. In 2015 Prisonarte.com was also featured in TheMarshallProject.Org

Our Goal

Prisonarte.com helps people relate to the gross amount of talented incarcerated people in our nation. We would like you to get to know these individuals as talented and capable artists.

We support program compliance within their facility in order for the artists to participate in our program. We offer these talented individuals the ability to earn money for themselves legitimately
